

coccidiosis in pigs; and to help prevent the spread of blackhead, trichomoniasis, intestinal coccidiosis and other protozoan diseases;

That the *Watkins Mange Oil* was effective to prevent and treat mange in hogs;

That the *Watkins Stock Mineral Compound* was effective to prevent off-feed conditions, lack of vigor in calves at birth, breeding troubles, general unthriftiness, and inefficient production; to keep cows in perfect condition; to cause cattle to be contented and healthy; and to aid digestion;

That the *Watkins Hog Mineral Compound* was effective to prevent off-feed conditions, lack of vigor in pigs at birth, breeding troubles, general unthriftiness, and inefficient production; to keep one pig out of every three from dying; to prevent and treat scours, necrotic enteritis, and swine erysipelas; to keep livestock in a healthy and vigorous condition; to eliminate breeding troubles; and to aid digestion and help build resistance to disease, particularly diseases common to baby pigs.

**DISPOSITION:** December 31, 1949. The J. R. Watkins Co., claimant, having consented to the entry of a decree, judgment of condemnation was entered and the court ordered that the products be released under bond for relabeling, under the supervision of the Federal Security Agency. On May 8, 1950, an order was entered by the court directing the destruction of the labeling by which the products were misbranded, as alleged in the libel.

● **3079. Misbranding of Dr. Martin's Sulfa Du. U. S. v. 12 Bottles, etc. (F. D. C. No. 28507. Sample No. 58631-K.)**

**LIBEL FILED:** January 16, 1950, District of Utah.

**ALLEGED SHIPMENT:** On or about October 25, 1949, by the California Poultry Supply Co., from Los Angeles, Calif.

**PRODUCT:** 12 1-gallon bottles and 25 1-quart bottles of *Dr. Martin's Sulfa Du* at Salt Lake City, Utah, together with a booklet entitled "The Sulfa Story," a circular entitled "Does Chick Mortality cast a shadow over your Poultry Profits?" and a leaflet entitled "Is Your Head Swimming Too?"

**LABEL, IN PART:** "Dr. Martin's Sulfa Du \* \* \* Sulfathiazole in soluble acid form, 22.2 gr. per fl. oz."

**NATURE OF CHARGE:** Misbranding, Section 502 (a), certain statements in the labeling of the article were false and misleading. These statements represented and suggested that the article was effective in preventing and treating the disease condition of poultry known as infectious coryza; that the article would establish and maintain therapeutically effective sulfonamide blood levels in poultry; that it would stimulate food and water consumption and aid normal digestion; and that it was superior to adequate doses of sulfonamides in other forms. The article was not effective for the purposes, and was not capable of fulfilling the promises of benefit, stated and implied.

**DISPOSITION:** February 24, 1950. Default decree of condemnation and destruction.

● **3080. Misbranding of Dr. Martin's Sulfadine. U. S. v. 39 Bottles, etc. (F. D. C. No. 28531. Sample No. 29848-K.)**

**LIBEL FILED:** January 16, 1950, District of Utah.

**ALLEGED SHIPMENT:** On or about August 5 and September 14, 1949, by the California Poultry Supply Co., from Los Angeles, Calif.

PRODUCT: 39 1-quart bottles and 3 1-gallon jugs of *Dr. Martin's Sulfadine* at Salt Lake City, Utah. Analysis showed that the product consisted of an acid solution of sulfaguanidine.

NATURE OF CHARGE: Misbranding, Section 502 (a), certain statements on the label of the article were false and misleading since they represented and suggested that the article was effective in the prevention and treatment of cecal coccidiosis of poultry, whereas the article was not effective in the prevention and treatment of cecal coccidiosis in poultry when used as directed, namely, "Directions: Add two tablespoonfuls (one ounce) to each gallon of all drinking water. For severe cases continue treatment for five full days \* \* \* Allow only medicated water during treatment."

DISPOSITION: February 24, 1950. Default decree of condemnation and destruction.
