

Val-U-Air Products Inc. New York, N.Y." and (cylinder and holder) "Caution: Keep Away from oil and heat."

ACCOMPANYING LABELING: Leaflets entitled "Val-U-Air Products Inc. * * * Important-Read Before Using"; instruction inserts for retail box; catalog sheets entitled "Brand new way to give profits a lift"; advertising throw sheets entitled "Air-Aid"; and sales letters reading in part "We are now preparing to launch upon the public an avalanche of advertising . . ." and "The ideal mail order item . . ."

RESULTS OF INVESTIGATION: The article was assembled by the dealer from parts shipped in bulk lots on the above dates. Examination showed the device to be a small cylinder-shaped inhaler designed to hold a replaceable oxygen cartridge. The cartridge contained about 3 liters of compressed oxygen which was released on a metered control. The weight of this pocket-sized unit was about 4½ ounces.

LIBELED: 1-22-62, S. Dist. N.Y.

CHARGE: 502(a)—while held for sale, the labeling of the article contained false and misleading representations that the article was adequate and effective as a treatment for relieving athletic exhaustion, swimming distress, overindulgence, strain, breathlessness, smoke nausea, morning indisposition, headaches, asthma, croup, coronary discomfort, anginal pains, driver fatigue, and respiratory difficulties.

DISPOSITION: 2-28-62. Consent—claimed by Val-U-Air Products, Inc., and released under bond for relabeling.

6960. Bauer vaporizer lamp. (F.D.C. No. 45756. S. No. 70-029 R.)

QUANTITY: 4,239 unlabeled vaporizer lamps, 1 drum of vaporizer liquid, and 5,990 1-oz. aluminum containers of vaporizer liquid designated as "caps," at East Granby, Conn., in possession of Bauer Chemical Co., Inc.

SHIPPED: 2-26-60 and 3-3-60, from New York, N.Y.

ACCOMPANYING LABELING: Leaflets entitled "Now Nasal Congestion Due to Common Colds."

RESULTS OF INVESTIGATION: The article in the aluminum containers was repacked by the dealer from the bulk drum shipped as described above. Examination showed the article to be an electric cone-shaped vaporizer. Vapor was reportedly produced by heating the aluminum cap containing the vaporizer liquid with an electric light bulb. The vaporizer liquid in the drum and in the caps had an odor of camphor, menthol, and eucalyptol. The aluminum cap was disposable after evaporation of the vaporizer liquid.

The leaflets were printed locally and were used in promoting sales of the article.

LIBELED: 5-9-61, Dist. Conn.

CHARGE: 502(a)—while held for sale, the labeling of the article of drug and device contained false and misleading representations that the article was an adequate and effective treatment for clearing nasal congestion due to sinus, postnasal drip, stuffy asthma and bronchitis, and for liquifying mucus; 502(b)

(2)—the drug component of the article failed to bear a label containing an accurate statement of the quantity of the contents; and 502(e)(2)—the label of the drug component of the article failed to bear the common or usual name of each active ingredient contained therein.

DISPOSITION: 12-20-61. Consent—claimed by Bauer Chemical Co., Inc., and relabeled.

FOOD AND DRUG ADMINISTRATION

**NOTICES OF JUDGMENT UNDER THE FEDERAL FOOD,
DRUG, AND COSMETIC ACT**

[Given pursuant to section 705 of the Food, Drug, and Cosmetic Act]

6961-7000

DRUGS AND DEVICES

The cases reported herewith were instituted in the United States district courts by United States attorneys, acting upon reports submitted by the Department of Health, Education, and Welfare. They involve drugs which are required at time of interstate shipment to bear a label containing the statement "Caution: Federal law prohibits dispensing without prescription," and which were dispensed after such shipment without a prescription or by refilling a prescription without authorization. This dispensing was contrary to Section 503(b)(1), and thereby resulted in the dispensed drugs being misbranded while held for sale.

Published by direction of the Secretary of Health, Education, and Welfare.

GEO. P. LARRICK, *Commissioner of Food and Drugs.*
