[Given pursuant to section 4 of the food and drugs act]

**12601. Adulteration of chocolate concentrate. U. S. v. 2 Gallons of Chocolate Concentrate. Default decree of condemnation, forfeiture, and destruction or sale.** (F. & D. No. 18616. I. S. No. 12986-v. S. No. E-4814.)

On April 23, 1924, the United States attorney for the District of Connecticut, acting upon a report by the Secretary of Agriculture, filed in the District Court of the United States for said district a libel praying the seizure and condemnation of 2 gallons of chocolate concentrate, remaining in the original unbroken packages at New Haven, Conn., alleging that the article had been shipped by Jack Beverages (Inc.), New York, N. Y., on or about April 5, 1924, and transported from the State of New York into the State of Connecticut, and charging adulteration in violation of the food and drugs act. The article was labeled in part: "Real Chocolate Concentrate \* \* \* Jack Beverages, Inc. \* \* \* New York City."

Adulteration of the article was alleged in the libel for the reason that it contained an added poisonous or other added deleterious ingredient, salicylic acid, which might have rendered it injurious to health.

On June 10, 1924, no claimant having appeared for the property, judgment of condemnation and forfeiture was entered, and it was ordered by the court that the product be destroyed by the United States marshal, or sold, if such sale could be speedily effected.

HOWARD M. GORE, *Secretary of Agriculture.*

E. Wood Butter Co., from Evansville, Wis., August 11, 1924, and transported from the State of Wisconsin into the State of Illinois, and charging adulteration and misbranding in violation of the food and drugs act. The article was labeled in part: "One Pound Net."

Adulteration of the article was alleged in the libel for the reason that excessive water had been mixed and packed therewith so as to reduce and lower and injuriously affect its quality and strength, for the further reason that a substance deficient in milk fat and high in moisture had been substi-
