

PRODUCT: Saladola. 50 cases, each containing 12 1-quart bottles, and 10 cases, each containing 24 1-pint bottles, at Burlington, Vt.; 4 cases, each containing 24 1-pint bottles, 3 cases, each containing 12 1-quart bottles, and 6 cases, each containing 4 1-gallon bottles, at Providence, R. I.; 21 cases, each containing 24 1-pint bottles, and 24 cases, each containing 12 1-quart bottles, at Rockland, Maine, and 2 cases, each containing 12 1-quart bottles, and 3 cases, each containing 24 1-pint bottles, at Portland, Maine.

LABEL, IN PART: "Saladola Brand Pure Mineral Oil * * * Mercantile Food Products Co. Boston, Mass."

NATURE OF CHARGE: Adulteration, Section 402 (b) (4), artificial color had been added to mineral oil so as to make it appear to be salad oil, which is better and of greater value than the article.

Misbranding, Section 403 (a), the label designation "Saladola" was false and misleading, since it represented and suggested that the article was salad oil, whereas the article was not salad oil; and the label statement "French Dressing," was false and misleading, since it represented and suggested and created the impression that french dressing could be made with the article, whereas french dressing could not be made with the article. Further misbranding, Section 403 (a), the labeling was misleading, since the statement "For the preparation of non-fattening, non-nutritive, and low calorie dressings for salads," coupled with the directions for use borne on the label, represented to purchasers that the article was wholesome and suitable for use as a substitute for food oils in preparing salads. The article was colored mineral oil, and its labeling failed to reveal the material fact that the substitution of mineral oil for food oils in preparing salads may be harmful and may have a deleterious effect.
